

DOMMETI L S VASANTHI

Graduate Software Engineer | Python | Java | Spring Boot | REST APIs | SQL | React.js | DSA

+919701594369 dommetilsvasanthi@gmail.com LinkedIn Website GitHub Rajahmundry, India

CAREER OBJECTIVE

Computer Science graduate with hands-on experience in Java, Python, Spring Boot, REST APIs, SQL databases, and full-stack application development. Experienced in developing, integrating, debugging, and testing software applications through internships and projects. Strong foundation in Data Structures and Algorithms, Object-Oriented Programming, DBMS, SDLC, and API development, with an interest in building reliable, scalable, and customer-focused technology solutions.

INTERNSHIP EXPERIENCE

Generative AI Intern Internship <i>SmartBridge (APSCHE)</i>	Sep 2025 - Mar 2026 <i>On-site • Tadepalligudem, Andhra Pradesh, India</i>
- Developed Python-based AI applications using LLMs, APIs, and prompt engineering for Generative AI use cases. - Performed data preprocessing, validation, transformation, and exploratory analysis using Pandas and NumPy. - Integrated and evaluated AI models and APIs to improve application output quality. - Debugged application workflows and validated AI-generated results against expected requirements.	
<i>Technologies / Skills Used : Python, Pandas, NumPy, Gemini API, Streamlit</i>	
SAP ABAP Trainee — DevCon Naxrita Internship <i>Naxrita</i>	Jan 2026 - Mar 2026 <i>On-site • Tadepalligudem</i>
- Developed applications using SAP ABAP Cloud, implementing data models and business logic. - Performed debugging and troubleshooting of application code while following software development best practices.	
Full Stack Development Intern Internship <i>Learnsquare Technologies Pvt. Ltd.</i>	Jun 2025 - Aug 2025 <i>On-site • Tadepalligudem, Andhra Pradesh, India</i>
- Developed REST APIs using Spring Boot and integrated SQL workflows with MySQL for backend applications. - Resolved 15+ API and database integration issues through debugging, testing, and troubleshooting. - Implemented JWT-based authentication using Spring Security and validated API functionality using Postman. - Used Git/GitHub for version control and collaborated on application development, debugging, and testing. - Improved application reliability by identifying integration issues and validating API behavior against expected requirements.	
<i>Technologies / Skills Used : Spring Boot, MySQL, React.js, JavaScript, Tailwind CSS, HTML</i>	

PROJECTS

AutoSage AI – Vehicle Expert GitHub	Sep 2025 - Feb 2026
- Built a Generative AI application for vehicle identification and intelligent recommendations using multimodal image analysis. - Integrated LLM API workflows and prompt engineering to generate structured vehicle insights and recommendation reports.	
<i>Technologies / Tools Used : Python, Gemini 2.5 Flash API, Streamlit</i>	
Next-Gen Attendance GitHub	Oct 2025 - Dec 2025
- Developed a webcam-based computer vision application for face detection, recognition, automated attendance, and emotion analysis. - Integrated FaceNet and MTCNN for face detection and recognition workflows. - Implemented image preprocessing, model inference, and validation workflows using Python and PyTorch to improve recognition reliability.	
<i>Technologies / Tools Used : Python, PyTorch, FaceNet</i>	
AgroGuide – AI Based Farming Assistant GitHub	Jul 2025 - Dec 2025
- Developed an AI-powered farming application integrating a CNN-based crop disease prediction model. - Implemented image preprocessing, model inference, backend integration, and database storage for predictions and recommendations.	
<i>Technologies / Tools Used : Django, Python, MySQL, CNN</i>	
Bus Reservation System GitHub	Aug 2024 - Feb 2025
- Developed a full-stack reservation application using Java, Spring Boot, REST APIs, and MySQL for booking and user management. - Integrated React.js with the Spring Boot backend and implemented secure JWT-based authentication. - Performed SQL debugging and query optimization during application development.	
<i>Technologies / Tools Used : Java, Spring Boot, MySQL, React.js</i>	

SKILLS

Programming Languages :	Python, Java, SQL, JavaScript
Backend & APIs :	Spring Boot, REST API Development, Django, JSON, API Integration
Web Technologies :	HTML, CSS, React.js, JavaScript
Databases :	MySQL, PostgreSQL
Core CS :	Object-Oriented Programming, Data Structures & Algorithms, DBMS, SDLC, Agile/Scrum
AI/ML :	Machine Learning, Deep Learning, Computer Vision, Generative AI, LLMs, PyTorch, Scikit-learn
Testing & Development :	Debugging, Troubleshooting, JUnit, Mockito
Tools :	Git, GitHub, Docker, Postman, Jupyter Notebook, Maven

EDUCATION

Sri Vasavi Engineering College Tadepalligudem, Andhra Pradesh, India <i>B.Tech – CS & Technology</i>	Aug 2022 - May 2026 <i>Percentage : 82.81%</i>
Modern Roof Govt Junior College for Girls Andhra Pradesh, India <i>Intermediate (MPC)</i>	Jun 2020 - Apr 2022 <i>Percentage : 84%</i>
Narayana E-Techno School Andhra Pradesh, India <i>SSC – Class X</i>	Jun 2019 - Apr 2020 <i>Percentage : 100%</i>

CERTIFICATIONS

- SAP Certified Associate – ABAP Cloud
- Microsoft Azure AI Fundamentals
- Microsoft Data Fundamentals
- Oracle Cloud Infrastructure – Generative AI Professional

RESEARCH & PUBLICATIONS

- Published the research paper “AgroGuide: An Integrated AI-Powered Web Platform for Empowering Small-Scale Farmers” in the Springer proceedings of ICCIC 2025.
